Education

National Institute of Technology (NIT) Kurukshetra

B.Tech – ECE, Branch: IIOT

2024 – 2028

CGPA: 8.30 / 10

Swami Vivekanand Inter College | UP Board – Class XII

2023

85.80%

Experience

TATA Advanced system Limited—Hyderabad, India

May 2026 – present

Summer Data Analyst Intern

- * Contributing to TATA's enterprise-grade scheduler platform, building constraint-audit modules and KPI that ensure highly reliable task scheduling and operational efficiency. Collect data from databases/files/API, clean and process data and present insights, monitor result and improve analysis.
- * Working on TATA's flagship **scheduler project** – building constraint-audit modules that validate task scheduling using SQL, Excel, SAP, and Google App Script.

Indian Institute of Technology (IIT) Patna

Aug 2025 – Sep 2025

Summer Software Development Intern

Under Prof. Mayank Agarwal, Dept. of CSE

- * Built a full-stack **stock management website** supporting bulk CSV uploads and interactive data visualization graphs for analytical decision-making. [Certificate](#) | [Repo](#)

Projects

Roamify | *Node.js, Express.js, EJS, MongoDB, HTML, CSS* | [GitHub](#)

Nov 2024

- * An online marketplace that connects homeowners with travelers seeking accommodations. Built using the MERN Stack Utilized responsive EJS templating for smooth and engaging user interactions. MongoDB integrated for efficient data storage and scalability. Implemented secure user authentication, ensuring a safe environment. Developed REST API endpoints to manage.

StockZen | *React, Tailwind, Node.js, Express.js, MongoDB, JWT, REST API* | [GitHub](#)

Apr 2026

- * StockZen is a modern stock trading web application developed using the MERN stack. It provides users with an interactive trading dashboard, portfolio management system, watchlists, and real-time stock insights through a clean and responsive interface. The platform is designed to simulate a real-world trading experience with secure authentication, scalable backend architecture, and smooth UI interactions

Achievements

- **Open Source – SSoC 2025:** Contribute in various projects.
- **Hackathons:** Cleared Round 2 of **Flipkart GRID 7.0**; selected for **Smart India Hackathon (SIH) 2026**.
- **Competitive Programming:** Solved **700+ DSA & CP problems** in Java – CodeChef **2-star**, Pupil in Codeforces, LeetCode rating **1800+**, **AIR 306** in LeetCode Weekly Challenge 502.

Technical Skills

Languages: Java, JavaScript, SQL, HTML, CSS (Tailwind)

Frameworks & Libraries: React JS, Node JS, Express JS, EJS, Bootstrap

Databases & Tools: MongoDB, SQL, Git, GitHub, VS Code, Thunder Client

Other: REST API Design, JWT Authentication, System Design(HLD), DSA, OOPS, DBMS, Operating System and Computer Networking

Extracurricular

Color's – A Happy Place

Mental health awareness club; organises programs promoting student well-being.

Member, Nov 2024, NIT Kurukshetra

OCD – Open Code Developer Society

Coding & developer society guiding students in the right direction in tech.

Member, Nov 2025, NIT Kurukshetra

Innovation Cell (I-Cell)

NIT's innovation society covering concepts of stock markets, trading, and entrepreneurship.

Member, Aug 2025, NIT Kurukshetra
