EDUCATION

National Institute of Technology, Kurukshetra 2024 – 2028

B.Tech in Industrial Internet of Things (IIoT) CGPA-8.40

Department- ECE

Global Public School, Gurugram

Class XII – CBSE - Percentage: 94.4% 2024

Class X – CBSE - Percentage: 96.2% 2022

ACHIEVEMENTS

- Solved **1000+** Data Structures and Algorithms problems across LeetCode, Codeforces and CodeChef
- **LeetCode Max Rating: 1900+**
- **Codeforces Specialist (1400+)**
- **CodeChef 3-Star Programmer**
- Selected for National Level **Smart India Hackathon (SIH)**

EXPERIENCE

VigorNext Pvt. Ltd.

May 2026 – Jul 2026

Frontend Developer Intern

- Developed and maintained React.js based user interfaces for client projects.
- Built responsive frontend components for an e-commerce platform.
- Implemented UI enhancements and feature updates based on mentor and client requirements.
- Worked in a professional development workflow involving iterative feedback and code reviews.

PROJECTS

InterviewIQ [Github]

Tech: Node.js, Express.js, PostgreSQL, Prisma, JWT, Multer, Gemini API

- Developed an AI-powered resume analysis platform using Node.js, PostgreSQL and Prisma.
- Implemented secure JWT-based authentication and authorization.
- Built a PDF resume upload and text extraction pipeline.
- Integrated Google Gemini to generate ATS scores, strengths, weaknesses and resume recommendations.
- Designed caching mechanisms to store AI-generated analyses and reduce repeated API calls.

Real-Time Groundwater Resource Evaluation (SIH) [Github]

Tech: Python, Pandas, NumPy, Scikit-learn, XGBoost, LightGBM

- Developed a machine learning solution for groundwater resource prediction as part of Smart India Hackathon.
- Performed data preprocessing, cleaning and feature engineering on real-world datasets.
- Trained and evaluated XGBoost and LightGBM models for predictive analysis.
- Collaborated in a team environment under time-bound hackathon constraints.

Romify [Github]

Tech: Node.js, Express.js, EJS, JavaScript, HTML, CSS, MongoDB

- Developed an online accommodation marketplace connecting homeowners and travelers.
- Built responsive EJS-based user interfaces for enhanced user experience.
- Implemented secure authentication and authorization features.
- Designed RESTful APIs and integrated MongoDB for scalable data management.

TECHNICAL SKILLS

Languages: C++, Python, JavaScript

Machine Learning: Pandas, NumPy, Scikit-learn, XGBoost, LightGBM

Web Development: React.js, Node.js, Express.js, MongoDB, PostgreSQL, EJS

Tools: Git, GitHub, Prisma

Core Concepts: Data Structures Algorithms, Object-Oriented Programming

RELEVANT COURSEWORK

Data Structures Algorithms, Object-Oriented Programming, Probability Statistics, Machine Learning Fundamentals
